Mr. Bettis, in voting on the Convention Bill Thursday, said: He was not in favor of the present Constitution under which we live. He wished some changes to be done by Legislative enactment, while a portion of his people instructed him to vote against Convention. He, however, before the vote was announced changed his vote from the negative to the affirmative, going for the bill.

U. S. Senator Merrimon arrived in the city on yesterday. It will be seen in our House proceedings of yesterday that Mr. Patton introduced a memorial from the Senator denying the charges contained in the Boyd resolution of Wednesday which were characterized as false by him, also stating that the same charges had been made in the Gubernatorial canvass of 1872, which had denounced as false, and that he had also courted the fullest investigation of the same, but they had never been accepted.

THE LATE ACCIDENT ON THE NORTH CAROLINA RAILROAD-ONE KILLED, ONE BADLEY SCALDED, I'wo OTHERS BURNED.-We men tioned in our Thursday's issue the accident that occurred on Wednesday last, by which Engineer Wm. R. Blake, of the North Carolina Railroad was severely scalded. We were unable to obtain particulars of the accident until yesterday, the western wire being in twain. It seems that Mr. Blake, the engineer of the material train, left Greensboro for Company Shops with his engine and tender only, upon which was his fireman, another engineer, Mr. Witherspoon, and Mr. Womble, a clerk in the railroad warehouse at Greensboro, formerly of Richmond, Va. The engine was running rapidly with the tender in front, when on approaching Gibsonville one of the axles of the tender broke and the latter plunged to one side of the road

latter plunged to one side of the road and the engine plunged to the other.

Mr. Womble was instantly killed, Mr. Blake severely scalded, and Mr. Witherspoon and the fireman slightly scalded. We are sorry to learn that Mr. Blake was suffering greatly on yesterday. He is, we think, at Gibsonville, and Dr. E. Burke Haywood was telegraphed to go to his wood was telegraphed to go to his assistance last evening. Mr. B. is an experienced engineer, and has been connected with the North Carolina road for many years—this being his first accident. His wife is with him, and in common with his many friends in this city, we earnestly trust his sufferings may be soon alle-viated, and that his early restoration may be complete.

A RESOLUTION OF INQUIRY.-Mr. Busbee introduced into the Senate yesterday a resolution requiring the Attorney-General to investigate the charges that had been brought against the lessees of the N. C. R. R. that they had violated the terms of the lease, and if it was found that the said terms had been violated that the lease be declared invalid. The resolation was adopted by a vote of 29 to
9. Pending its discussion, Mr. Graham pitched into the lessees for destroying by the change of the gauge
the every railroad interest of the
State; had he been Governor of the
State he would have had his militia along the line of the road on Monday night and the parties thus operating against the interests of the State would have been in jail before Tues-day night. We agree with Mr. Graham in his sentiments, and wish he

had been Governor. THE TIM MORRIS MINSTREL TROUPE.-The above combination, as will be seen by announcement in our advertising columns, will open in Tucker Hall for two nights, com-mencing on Monday. We have seen Tim Morris in by-gone days frequently, and as a delineator of negro minstrelsy he stands in the front rank of performers of this class. The papers in different sections of the up his old reputation, and that he is now supported by a good Company. The entertainment is not the usual bone and banjo playing of negro minstrel troupes, says an exchange, but consists of laughter, moving farces, nterspersed with songs, dances, &c. It is entirely free from all vulgar allusions and can be witnessed by the most refined. We hope to see Tim greeted with good houses.

FRAUDAND CORRUPTION .- Let the Legislature look out. A bill to pay \$3,400 of the people's money to a certain party is to be tempted to be smuggled through in the last hours of the session, in an open resolution or obscure clause in some unnoticed bill, which is to be read and passed by its title. Let every clause of every bill be scrutinized. The people are to be cheated out of \$3,400 by a trick. Let their representatives look out. P. S.-The resolution referred to was introduced in the House last night and tabled. If by any inadvertence this appropriation of the people's money to a private pocket had passed, it would have been a heavy load for the party to carry in the approaching Convention cam-

paign. THE GREENSBORO GIFT CONCERT. -The following gertlemen have been selected by the ticket-holders to superinted the Gift Concert to take place in Greensboro on the 19th of April, the concert having been postponed for reasons already announced Messrs. Julius A. Gray, J. H. Lindsay, Col. Thos. Ruffin and J. B. Gratter, of Greensboro; W. T. Black-well, of Durham; Frank H. Dewey, of Charlotte; William H. Finch, of Raleigh; Ex-Gov. Reid, of Rocking-ham; J. C. Milner, of Danville, Va; G. A. Bingham, of Salisbury; C. M. Crump, of Company Shops; I. T. Scales, of Rockingham.

Robinon, their Speaker, with an elegant gold watch and chain as a testimonial of their high esteem as a presiding officer. Mr. John N. Staples, of Guilford, has been chosen to make the presentation speech on the part of the members. The ladies of the city especially are cordially invited to attend and witness the presentation.

THE CHARLOTTE CENTENNIAL—Capt. N. C. Harry, of Charlotte, is in the city on business connected with the approaching Charlotte Centennial celebration. He waited on Gov. a fine body of men, and principally soldiers of the late war. They will form the reception committee to visiting military companies. We are glad to know that Capt. Harry's prospect of success to secure arms is encouraging. THE LEGISLATURE cannot be too careful. They are the guardians of the people's money. Let them remember that in the haste and hurry of this the last day of the session, most nefarious bills will be attempted to be passed. Let our party remember that they are in the majority, and for what is done this day our party will be called in question and have to answer during the coming Convention campaign. The Rings and Lobbyists are wide awake. Caution! Caution! Caution!

Rose to Explain.—Mr. Menden-hall, in the House on yesterday, stated his reasons for the vote he cast in the negative on the Convention Bill and corrected that portion of our reporter's account in regard to his being called upon a "second time to vote" by Mr. Norment. He stated that he voted after making his re-marks before taking his seat, in which statement Mr. Norment con-curred and the reporter herewith

Personal.—In reply to "I," Greensboro, we would state there are several very good houses in this city dealing in garden seeds. There are no seed better than those raised by Mr. Jas. J. H. Gregory, of Marblehead, Mass. We have long known that he keeps the best of all things in his line. Try him, and you will no longer complain of disyou will no longer complain of disappointment. But, strange to say, he does not advertise in the News.

THE WILDMAN TROUPE.-This froupe gave their second performance last night to a good house. Violet was well rendered, the company sustaining Mr. and Mrs. Wildman better than on Thursday night. To-night the great historical operatio drama of "Lucretia Borgia" will be rendered, to conclude with the farce of "A Youth Who Never Sawa. Woman." Let Clara Wildman have a full house this her last night.

SENATOR GRAHAM.—In mention ing the speeches made in the Senate in favor of the University Bill in our last issue we inadvertently left out the name of the popular Senator from Lincoln and Catawba. We may say here that he not only sup-ported the bill on the floor of the Senate but from the beginning the bill had no more zealous or en ergetic friend than this gentleman.

DURHAM .- We spent Thursday in the little "magic city" of Durham, and were pleased to note many extensive improvements that have been added to the town within the past six months. The Blackwell tobacco factory, the largest building of its character in the South, if not in the United States, is nearly complete.

NEWBERN, March 18th. Editors of the News: -Our people were perfectly carried away with enthusiasm upon the reception of a tele-gram from Raleigh announcing the passage of the Convention bill to-day. It was what we had anxiously waited for, and though delayed longer than we expected, it was a boon granted us by the Legislature-non e the less appreciated—on that account. Our people feel that they owe much to the efforts of the NEWS in their behalf, (for the calling of a Convention was a move in which they were peculiar-

ly and particularly interested,) and will in the future, as in the past, ex-tend to it a cordial support. We here regard the NEWS as one of, if not the very best Democratic dailies in the State, and I but express the wishes of the entire community, when I wish it long and continued ELM CITY. The House Land Scrip Bill passed the Senate yesterday by a vote of 23 to 16, and is now a law. This bill authorizes the issuing of bonds to the extent of \$125,000, the interest of with the University of North Caro-

which, some \$7,500, is to be appropriated annually to the purposes of an agricultural brauch in connection lina. This arrangement, it is thought, will enable the friends of the University to put this institution upon its feet again. The Senate yesterday was engaged a considerable time in considering the substitute introduced by Mr.

Hargrave concerning the N. C. R. R., the bill seeking to relieve that road of the "Construction Bonds" that now hang over it. The bill passed its second reading by a vote of 19 to 17, and last night passed its third reading by a vote of 22 to 12.

Senator Parish's bill to add 400 acres to the 300 now in the corporate limits of Hillsboro, thereby seven voters but a good deal of taxable area, has been reported back from the committee unfavorably, and we suppose merely waits its turn upon the calendar to he called and killed.

BILLS AND RESOLUTIONS INTRO-DUCED. MEMORIAL.

Mr. Patton, by leave, presented a memorial from U. S. Senator A. S. Merrimon, replying to the resolution introduced into the House by Mr. Boyd, of Alamance, on Thursday last. Mr. Senator Merrimon repels the charges made against him, saying that in the Gubernatorial canvass in 1872 similar charges were made and repelled. They were base slanders. He had courted the fullest investigation and it had never been accepted. The charges were maliciously false. The memorial was placed upon the Calendar.

Mr. Busbee, a resolution requiring the Attorney-General to examine into and ascertain if the lessee of the North Carolina Railroad has not vio-lated in several instances agreements of the loan, and if so, that officer re-port the fact to the Governor, and with the consent of the parties leas-

ing the lease be declared invalid.

Mr. Morehead objected to the Legislature being made the cat's paw for the conflicting railway interests, and asked to know what were the charges against the lessees of the N. C. R. R., and who it was made these charges. He certainly was not the champion of the R. & D. R. R., but he did not want the General Assem-bly called upon to tell the Attorney General what was already his duty. Mr. Graham, Chairman of the Committee on Railroads, hoped the

resolution would pass.

The lessess of the N. C. R. R., had failed to keep the road up, and he demanded in the name of the dearest nterests of North Carolina that this State take every step in its favor to thwart the ends of those foreign corporations who were seeking to destroy the railroad interests of this State, and he wanted to see North Carolina put its foot on all such at-

"By the employment of 800 hands in the space of one Sunday and a single night, when officers of the law are never on duty, and injunctions are seldom ever issued, he (Colonel Buford) set to work, and succeeded in changing the gauge of his whole road in the space of a single night, or twenty-nine hours."

How were these hands gathered up so opportunely, unless by previous intimation of a favorable decision in the case?

Certainly, if the Legislature had been so well informed, the law enacted by it, would have kept pace with the decision.

CONTEMPT OF LA .

There never has been in the State of North Carolina since it had a settled government such open defiance and wanton contempt of law as has been and is still exhibited in this change of gauge matter. The intention of the Legislature was no secret. The passage of the bill in the Senate preventing the change by a unanimous vote made it certain that it would pass the House by the like unanimity left no doubt as to the intention of the General Assembly. The cutting of the telegraph wire between the Shops and Greensboro, and the convenient excase of a break in the road by a freshet on a day when there was no rain, cannot supply the plea of ignorance. But even supposing the work was begun in ignorance, it was not so continued. Full infor- fested through the Conservative mation was telegraphed to Charlotte via Wilmington, and is known to have reached its destined hands. Yet after it was received, the work of demolition was continued until Wednesday night, two days after it | immeasurable good, and the restor-

We are glad to learn that Gov. Brogden has taken some steps to

There is a mystery in the exact corresponce of the action of the Col. Buford in Raleigh on the day the decision was rendered. No one here has seemed to be aware that the case was up. Col. Buford came here on Saturday morning. On Saturday night 500 hands were ready to go to work, and did go to work on Sunday morning. How could that number have been gathered in this State in so short a time without previous understanding? And what was the basis of that understanding?

THE PASSAGE OF THE CON-VENTION BILL.

If we were to give full vent to our feelings, they would express unbounded exultation at the success of a measure which step by step has gained ground, gradually worked its way into favor, and finally triumphed over an opposition always formidable because always so much to be respected. We might feel just pride in the establishment of our own positions and the vindication of our own judgment, did we not remember how fallible is all human judgment and that a measure is only to be judged by its fruits. Feeling the weight of the responsibility which the party has assumed, we forbear all boastfulness, and express only so much satisfaction as is

allowable. That the Conservative party has done a wise thing, and a patriotic thing, we do not for a moment doubt. It had the imperative duty forced upon it to use the power fortunately thrown into its hands. It had come into their power with the understanding, more expressed than implied, that it would do this very thing. The very crigin of the present Constitution was a sufficient cause for its overthrow by a people restored to their unfettered freedom of action. Its defects long ago ensured its condemnation. Its incompatibility with the habits of the people forbid all attachments to it. It has existed a tolerated curse, because a change in it was considered offensive to our rulers, threatened damage to special interests at home, and perhaps more than all, to the conservative character of the people and willing to submit to much evil imposed under the forms of law, rather than subject themselves to the reproach of fickleness or the importations of disaffection.

The Democratic party has incurred much censure for the position it took, as a party, upon this question, here at home as well as abroad-at home reproached with causelessly disturbing the tranquil current of events, and obtruding needlessly upon the minds of men fresh causes of discontent, or unnecessary causes of excitement. Abroad, its action has been misconstrued into hostility to the General Government, and opposition to its favorite schemes and settled plans. To the first, it is only necessary

to answer that a recurrence to fundamental principles in this case was absolutely necessary. If it does involve confusion and inconvenience to pull down an edifice that is full of decay that is unsound and unsafe, it is better to pull down and re-build thoroughly and safely, than to go on living in that which demands continual repairs, and which in time becomes an undistinguishable price of patchwork. This was eminently the case with the Canby Constitution, and so admitted by all parties. Few had the independence like Mr. Cantwell, in the Senate, or Mr. Candler, in the House, to act upon their own convictions. But even these gentlemen suffer nothing with their own party, for in its conscience, it knows that they

And with reference to censures from abroad, the Demotratic party has only to point to the guards it has thrown around, and the restrictions imposed upon, the Convention, as a full answer. All the new amendments to the Constitution fully recognized and pledged to inviolability; the rights and privileges of the colored people guaranteed, the right of suffrage secured to all, no property or educational qualifications for voting required; these and other restrictions, show the loyal character of the movement, while in the determination to retain of the present Constitution all that is good, the conservative spirit of the people of North Carolina is maniparty, its true exponent.

We tender our heartfelt congratulations to the people of the State for the happy issue of the work of Thursday, believing it will result in was known to have been unlawful. ation of a long absent prosperity.

To three gentlemen, one at present a Republican, Mr. Candler, and vindicate the rights and dignity of to Messrs. Glenn and Foote, lately acting with that party, is due the passage of the Convention Bill. The absence of Messrs. Jetton and Supreme Court and the presence of | Moffett, the death of Mr. Ballard, and the adverse vote of Mr. Mendenhall, of Guilford, left the Democratic party without a constitutional majority. These gentlemen rose superior to present or past party restraint, and threw themselves into the breach, and saved the day. Their action restored confidence and ensured victory.

Their independence is a proof that the call of a Convention cannot be considered a party scheme for party purposes, but in which candid minds be good to both parties, Democratic and Republican

The eagerness of American soldiers to enter the military service of the Khedive of Egypt will, probably, somewhat abate when the qualifications for that service become better known. There is, to say the least, a startling suggestiveness in the advertisement that recently appeared on the walls of Mice anouncing that "troupe of twenty-five American eunuchs, graciously permitted by the Chedive of Egypt to make a tour of Europe," would give a performance in that city. We had an idea that the Khedive's American soldiers were a harem-scarem, and probably a scarem-harem set of fellows, but we did not know it was as bad as

Consumptives, Take Notice,—Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption far exceeds all that can be brought to supfor exceeds all that can be brought to support the pretensions of any other medicine, see Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cured.

GUANOS.

ENUIN ORCHILLA GUANO A.A.

A TRUE BIRD GUANO.

Soluble Ammoniated South Sea Guano. B. M. RHODES & CO., Office 82 South Street, Baltimore.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia. Chemical Laboratory of the University of Pennsylvania.

I have analyzed as follows:—"I Sample of "Soluble Ammoniated South Sea Guano, prepared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 182 lbs.," which I found to contain—

MOISTURE, 15 53 per cent.

SOLUBLE PHOSPHORIC ACID, 4.32 " equivalent to 9.43 pr. ct. of Bone Phosphate of Lime PRECIPITATED, " 7.16 " 15.63 " INTROGEN, equivalent to 2 98 " Ammonia.

ALEALINE SALTS, - 8.25 " Ammonia.

2—Sample of "Orchilla Guano, A.A., B. M. RHODES & CO., Importers' Agents, 82 touth Street, Baltimore, 167 lbs. Curacao," which I found to contain— PHOSPHOBIC ACID, - 26.86 pr. ct., equivalent to 58 64 pr. ct. of Bone Phosphate of Lime Both samples were certified to having been taken, sealed and sent by Thos. HARRIS HODGES, Notary Public, and were in perfect condition. F. A. GENTH. Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano:

The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perfectly justified in recommending the Orchilla.

W. P. TONRY,

Prof. Anal. and App'ld Chemistry, Maryland Institute. The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phesphates of Lime and Alkaline Raits, but more particularly for the physical condition and texture in which this Guano is presented.

G. A. LIEBIG, Ph. D.

This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Cotton Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with that of Phosphatic Manure.

I am, gentlemen, respectfully yours,

J. W. MALLET, Charlottsville, Va.

RALEIGH, N. C., January 29, 1875.

From the Analysis of Dr. Genth there is no doubt of the high percentagejof Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. MALLETT upon the above testimony of himself and Prof. Liesing & Tongras to its physical condition that it offers a desirable source of Phosphoric Acid to Cotton Farmers and others who have the means of furnishing the Nitrogenized matter at home.

the 28th inst. he Court House in Kenansville een let out by contract to be rered and re-painted.

Rev. A. R. Raven of the M. E. nurch at Washington, N. C., is coning a revival in that place. leo. Berry, an engineer on the Air-Line, made fif'y miles for a red or more miles a few days

Sunday a real genuine, live nan arrived at the Central in Charlotte. He was a Rus-nd his name was Tyrskeiwiez nd had two male and one female ervants. His wife, with him, is a er of Hon. Geo. S. Bancroft, time American Minister to He has been spending some in Florida where he has been oting alligators and taking exis on steamboats chartered for mself and company exclusively. Says the Washington Sunday Her-ld of the 14th: "Hon. A. M. Wadof North Carolina, has been con-

ed to his room at Sanderson's Ho-, threatened with pneumonia, but out again. Mr. Waddell is one of e most accomplished of the many men who represent the South in House of Representatives. With Forty-fourth Congress he enters pon his fitth year of service as a epresentative. His parliamentary erience, added to natural ability nd character, will make him both in influential and useful member of the Democratic majority."!

We learn that U. S. Marshal and posse attempted to arrest John D. Waters, of this county, for illicit reg, or perjury, or probably both. e officers arrived at Waters' use he disappeared by the back and, upon being command-halt and not obeying, one or wo shots were fired at him, when he ilted and turned upon his pursuers nd, awaiting their approach till within 10 or 12 paces, drew a pistol and pointing it at them popped the cap, e piece failing to fire. He then turned and made good his escape, though ne officers fired at him several times. Upon their return to the house they ceived a tirade of abuse from Waters' wife. We heard no complaint that the Marshal or any of his posse acted rudely or improperly.-Duplin Record.

The Beecher-Tilton Trial. In the Brooklyn City Court Tues-

day a number of witnesses were examined to show that Mr. Moulton repeatedly denied the truth of the arges against Beecher; sometimes in language more emphatic than elegant. The pistol story he denounced with special force. It was made to appear that he was, accordng to his humor, indignate, sarcasand reserved about the matter. One of the witnesses said that Moulton told him that Beecher was entirely innocent and as pure a man as ever lived. At one period of the examination the counsel for the prosecution said that it was useless to call so many witnesses to the point as Mr. Moulton did not deny having used the expressions atttributed to him. Thomas M. Cook who had been a reporter on the New York Sun, was called and testified to his having become acquainted with Mrs. Wood-He made her many visits, during which he became acquainted with Tilton, and then proceeded to tell of great degree of intimacy existing tween Tilton and Woodhull, and of the latter having proposed to him to write up the Beecher scandal— Tilton being present—and that he had replied that if he attempted to do so he would involve his paper in a flood of libel suit. Mrs. Woodhull told him on the same occasion that "Theodore had all the letters and papers connected with the matter."The witness was cross-examined very closely and at much length. It was made to appear that his expenses and something over were paid by the defense. He had, he said, an interview at Detroit with Mrs. Woodhull some two weeks ago. The coachman who drove Tilton and Woodhull to Coney Island next testified as to the bathing incident. Rev. Mr. Haliday, Beecher's assistant, was the last witness called. His evidence developed nothing new of consequence. The Judge, in reference to questions about the contemplated action of Plymouth Church, uled that it could be proved by the church records which might be produced in court this morning.

So has it come to this? We read in a straight-out Republican paper: "Strangers visiting Washington are amazed to see the use to which the galleries in the Capitol are put by lazy, vermin-covered, drunken negroes. These wretched beings make a lounging place of the Senate Cham-ber and the House of Representatives, and come in out of the streets to sleep in the galleries. It is all very well to naintain the rule that the people shall be able to hear their representatives debate, but it is a little too much to have the Capitol turned into a free lodging-house for paupers. There ought at least to be a rule forbidding persons who are either drunk or repulsively dirty to enter the gal-leries. If this were done, decent people could frequent the galleries without the danger of having to sit next to some filthy drunkard." All true, but rather hard on "our dear friends," the colored people.

One of the President's Private Secretaries is authority for the statement that forty-nine ex-members of the last Congress have filed applications for office at the Executive Mansion. Some of them ask to be made Assistant-Secretaries, others Judges, Ministers, Consul-Generals, Marshals, Postmasters, District-Attornes. As nearly all of them voted for the Force bill, and are in favor of the third term, the President is anxious to reward their devotion to his fortunes; but the trouble is that there is a limit even under the present administration, to the number of offices that can be filled, and the chaps who are in cannot be very easily put out. It is probable, however, that the majority of these gentlemen will be provided for in some way during the summer. The Senate will then be out of the way and there will be no trouble, at least until next December, about their confirmation.

The Boston Traveler wants to know what more General Butler could do, after Poland called him "a d-d liar," than to walk away. Well, we don't know; but think if he had gone up to Poland and turned around and stooped down and begged him for just one kick, he would at least have acted more like the "perfect gentleman" that he is.—Richmond Enquirer.

A PRIEST TRIED AND ACQUITTED-The Rev. Mr. J. Forhan, a Roman Catholic priest in Chicago, was tried in that city on Tuesday last, on the charge of embezzlement and declared not guilty. It was developed in the testimony that Father Forhan be-came displeased with the treatment he had received from Bishop Foley, of the Chicago Diocese, and started to Rome to prefer charges against the Bishop, taking with him \$3,000 realized from a church fair, which had been entrusted to his keeping. When he reached New York he was arrest ed on the charge of embezzlement and taken back to Chicago for trial, with the result above announced The spectators made the courtroom ring with cheers as the verdict was announced.

It gives us great pleasure to announce, as we do, upon good authority, that before the close of the present year there will be a line of European steamships running directly and exclusively to Norfork. An extensive ship owning firm in England intend making the experiment, and will put on six steamships. A golden harvest will be reaped, as by that time the incoming cargoes will be bespoken by the Southwest, and cotton will always furnish the outgoing ones.— Portsmouth Va., Enterprise.

An Important Fact,—The voluntary testimony of thousands establishes beyond all doubt a fact that of vital importance to the sick and debilitated, viz., that Hostetter's Stomach Bitters is an absolute specific for remittent and intermittent fever, dyspepsia, constipation, billiousness, mental depression, sleeplessness, chronic diarrhoea, and all diseases of the stomach, liver and bowels. The unim dicated stimulants usually prescribed in these cases only aggravate the symptoms, instead of removing them. The Bitters on the contrary, act as a corrective and invigorant, without producing the unpleasant and dangerous consequences of the old school practice. The action is mild and sootting to the trritated stomach and bowels, promoting digestion action is mild and southing to the irritated stomach and bowels, promoting digestion and preventing flatulence, nausea, headache and all intestinal irregularities. A wineglassful before meals greatly assists digestion. The convalescent may use them with great benefit, as a means of restoring strength and cheerfulness.

ENCOURAGE HOME INDUSTRY. Why will our Merchants and others buy their Chars from the North instead of pat-roulzing their own Factories at home. Why will they be imposed upon by those ads of Northern firms, the Drummers Whose expenses and extravagances they (our Merchants) have to pay out of the cabbage leaves, plucs, soaks, sourious mixed Havanas, and infected rubbish, that

ixed Havanas, and i By purchasing their Cigars from the Sorth, our Merchants enrich a class, that ineither care for our community, and leave none of the money spent with them here, whilst the Cigar Manufacturers of Raleigh languish for reason of patronage from the very one's that ought to take a pride in building up home Manufacturers in their midst. satisfaction both in quality and cheapness, than the whole army of Commercial Agents that infest Raleigh in the interests of Northern Houses.

By encouraging Home Mannfactures, cur Merchauts will see our Cigar Fuctories (instead o' being mere burlesques of Factories of modest appearance) large in size, flourishing in plenty of work, with twenty or thirty Cigar makers constantly making up stock for home consumption. Those men that our Manufacturers would employ world spend from three to four hundred dollars weekly, thereby benefiting the community at large and keeping the money where it ought to be at home. RICHMOND, VA., February 25th, 1875.

The Guanahani Guano Company has seen fit to publish a card to the effect that our "Cat Island Guano" is of an inferior quality to their importations, and had been rejected by them. From the reputation of the signers of that card, we presume they did not know that this statement was false. We propose to prove to the satisfaction of that Company and of the public the following facts, viz:

1st. That their agent at the Islands attempted (AND FAILED) to get control of deposits of Guano that were secured by a member of our firm who is now at the Islands.

2d. That our Cat Island Guano, according to the analysis of Professor White, of the University of Georgia, (who analyzed for the Guanahani Company,) is at least the equal of the Guano imported and sold by the Guanahani Company last spring in the cution sections of Virginia and North Carolina.

Our Guano shall stand or fall by the crucial test of the analytical chemist, and not by cards put out on the eve of the planting season. We will have each cargo analyzed before its receives our brand, or is offered the public, and we will publish the report of the chemist. We invite the Guanahani Company to publish the analyses of each of the various lots offered or sold by them last spring, that the public may decide.

We have been enabled to avoid the mistakes that the inexperience of the Guanahani Company betrayed hem fate last year. We are not taxed with the enormous expenses for salaries, &c., paid by them, and with one of our firm on the Island, and one of the most experienced Guano men in the country as our General Agent, we are satisfied we can beat them in quality and price. We challenge them to meet us in the laboratory or on the plantation; and until they can compete with us successfully in these tests, their paper attacks will not hur the best natural Guano (except Peruvian) yet offered to the public.

They write about "their standard!" Will they publish it? Why did they publish a standard last year, and withdraw it? We have taken proper steps in the Courts to pro

as a Fertilizer especially adapted to the wants of those who appreciate the neces

sity of making their land produce the

highest possible yield.

WHANN'S RAW BONE SUPER-PHOSPHATE

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

Cotton, Corn and Tobacco

WHANN'S PHOSPHATE has produced the most gratifying results, in many instance for exceeding the most sanguine hopes of those who have used it.

We offer this renowned fertilizer for the coming season, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Read the following opinions of some who have used WHANN'S RAW BONE SUPER-PHOSPHATE: Messrs. Williamson, Upchurch & Thomas:
Gentlemen:—The ton of Whann's Raw Bone Super-Phosphate purchased of you last
Spring made the best crop of cotton I ever made, and I consider it decidedly the best
fertilizer I ever used, I want it again next season.
Yours truly,
S. W. MITCHELL. Green Level, Wake County, N. C., Nov. 25, 1874.

Louisburg, N. C., Nov. 9, 1874. Messrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,
JOHN E. THOMAS,

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the season dry, but the crops surpassed our exceedations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt.

Louisburg, N. C., November 7, 1874. Messrs. King, White & Shaw:
I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer.

NORRISS MERRITT.

Mesers. Walter, Whann & Co., Wilmington, Del.:

Dear Sirs:—In response to your inquiry as to the action and worth of Whann's Raw
Bone Super Phosphate, we beg to say that we have sold it to the best planters of North
Carolina for eight consecutive years. Many of the parties who bought of us eight years
ago are still using it. It has always ranked as among the very best of commercial fertilizers, and has been very popular wherever used.

One sultry afternoon
I called to get a glass of Ale
At Joseph's Central Saloon;
Oh, Joe, said I, I'm very dry,
Have you Ale that isn't sour?
Said he, my Ale is never stale,
I buy from Frederick Lauer.
Chorus—Then tap your Ale, the Reading
Ale.

Ale, The Ale that don't sour— It keeps so long because its strong, And brewed by Frederick Lauer. I heard a song that McEven's Ale
Was high in public favor!
It can't compare with Reading Ale
In richness or in flavor,
For Lauer has the best of Malt,
Good brewers and good Barley;
His Ale is, fine as the "Champagne
Wine"
That's drank by Champagne Charley.

Chorus-Then tap your Ale, the Reading Ale,
The Ale that don't get sour—
It keeps so long because its strong,
And brewed by Frederick Lauer.

Now, if ever you pass through Raleigh,
Just stop one afternoon
And take a glass or two of Ale
At Joseph's Central Saloon,
And if you chance to stay over,
You'll find out very soon
That the acknowledged headquarters of
the city
Is JOSEPH's Central Saloon.

Chorus-For Joe will keep the wholesome Ale, The Ale that don't get sour; It keeps so long because its strong, And brewed by Frederick Lauer.

vessel for transprtation to the leper village, to be kept there until they beach and expressed their grief in loud lamentations. A talented half-breed, called Bill Ragsdale, has long held a high place in the regard of Sandwich Islanders. He is an orator of great natural power, a leader in the district of Hilo, and a man of notoriously bad morals. He discovered that he was leprous, although the indications were so slight that he had escaped official notice, and at once gave himself up to the authorities. A procession of natives, ighing and carrying flowers, escorted him to the vessel which was to take him and the others to their living graves. He made a speech to the assembly, urging submision to the measures for eradicating leprosy by banishment, and expressing his hatred of missionaries.

IMPORTED ONLY BY THE

GUANAHANI GUANO COMPANY,

PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation.

Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fall, and having large and well ventilated Warehouses in the city of Petersburg and at City Point, we are enabled to put our Guano on the market, in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

liser.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having no.hing to conceal, we made no innovation on established usage, by publishing those letters received unfavorable to our Guano, but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming place for our Fertilizer Superior to many, and sec and to None.

We confidently expect the continued ps tronage of the Agricultural Community and no exertion will be spared on our part to make
